GitHub

Console tool to download manga | *Python*

A command line console to download manga from various websites, with just a little bit of information.

GitHub

Job Experience

MAC Banorte | Data Base Administrator | *2018*

- At first my duty was trying to restore the function of the blocked ATMs by sending remote commands if that didn't work I've to coordinated appointments for the maintenance and repair of ATMs.

MAC Banorte | First Line Specialist | *2018*

- Later, due to my knowledge in databases, my role changed to manage the database where the issues were recorded. My duty was to develop some scripts to optimize the CRUD process and performance reports.

Education

Platzi | Data Engineering

IPN ESCOM | Data Science Bachelor's degree

IPN CECyT 9 | Programming Technician
